Accessibility resource office

Saint Mary's College will provide reasonable accommodations to qualified graduate students with disabilities who request accommodations and provide appropriate documentation.

Documentation should be provided by an appropriately credentialed professional:

- a physician for physical disabilities,
- a psychologist with training in the learning disabilities of adults and adolescents for learning disabilities, or
- a mental health provider licensed to diagnose psychiatric disabilities.

The specific content of the documentation will vary with the nature of the student's disability, but in all cases it should include a diagnosis, justification, recommendations, and a clear rationale for the recommendations.

The student is responsible for arranging accommodations with the Accessibility Resource Office and with their professors each semester. Students in online graduate programs who need accommodations must email the Accessibility Resource Office at aro@saintmarys.edu to set up an appointment via phone or video chat such as Skype. The student will sign a release of information allowing the Disabilities Resource Office to inform his or her professors of the approved accommodations each semester, and must make a follow-up appointment to meet with each professor to discuss the implementation of the accommodations. Faculty are not authorized to grant academic accommodations and those receiving requests will refer students back to the Disabilities Resource Office.
